Nuremberg, _____ (Date)

Signature of the photographed

(in case of minors younger than 18 years, signature of a parent or legal guardian)

Additional comments:

¹If both parents act as legal guardians, the consent of both parents is necessary. However, the signature of one parent is sufficient, when this parent confirms the consent of the other. In the case of a retraction, the consent of one parent is sufficient, even if both parents signed the consent initially.

²In case of a publication online, the material will be accessible worldwide. The reuse by a third person (especially through the sharing on social networks) cannot be ruled out. Digital photos and videos can be copied, changed or used further, without the UNSN e.V. knowing or having any influence over this.

The consent is valid from the day that the document is signed. However, you have the possibility to retract your consent with immediate effect. If the consent is not retracted, its validity is temporarily unlimited. In case of a retraction, we are not obligated to remove already published material from the website or social media platforms. From the retraction forward, every further publication by us is not viable. If we agree to delete already published material, this will only include publications we made ourselves. A complete removal from the internet cannot be guaranteed.
